Deadline for manuscript  
submissions:

**closed (30 April 2023)**

### Message from the Guest Editors

Dear Colleagues,

Chronic kidney disease (CKD) can arise from many different disease pathways that deteriorate renal function irreversibly over months or years, while diabetes mellitus and hypertension are the main causes of CKD worldwide.

This Special Issue is dedicated to original papers, brief reports and reviews that provide further understanding or novel opinions in the diagnosis and treatment of CKD. For scholars, the traditional cell-culture models may not be adequate for studying the functional intricacies of the kidney. Recent experiments have offered improvements in our understanding of these systems, including organoid modeling, 3D bioprinting, decellularization, microfluidics and other potential applications of kidney bioengineering. We look forward to your valued research to make this Special Issue a reference resource.

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Bioengineering* (ISSN 2306-5354). *Bioengineering* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. *Bioengineering* provides an advanced forum for the science and technology of bioengineering. We would be pleased to welcome you as one of our authors.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPlus / SciFinder, Inspec, and other databases.

**Journal Rank:** JCR - Q2 (*Engineering, Biomedical*)

**Rapid Publication:** manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.6 days after submission; acceptance to publication is undertaken in 3.1 days (median values for papers published in this journal in the first half of 2024).
