### Dr. Michael D. Lynch

Department of Biomedical  
Engineering, Pratt School of  
Engineering, Levine Science  
Research Center Duke University,  
Hudson Hall, Box 90281, Durham,  
NC 27708, USA

Deadline for manuscript  
submissions:

**closed (30 November 2015)**

## Message from the Guest Editors

Dear Colleagues,

Metabolic engineering involves the strategic improvement of the network of cellular reactions, and the regulatory programs that influence them. This field has enabled the production of fuels, chemicals, materials, and therapeutics, using industrialized cell cultures. A deepening knowledge of metabolic networks and the emergence of improved genetic engineering tools have led to a widened scope of products that can be made by cells. This Special Issue of *Bioengineering*, focused on Metabolic Engineering, highlights recent advances in this exciting and fast-moving field.

Dr. Mark Blenner

Dr. Michael D. Lynch

## Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Bioengineering* (ISSN 2306-5354). *Bioengineering* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. *Bioengineering* provides an advanced forum for the science and technology of bioengineering. We would be pleased to welcome you as one of our authors.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPlus / SciFinder, Inspec, and other databases.

**Journal Rank:** JCR - Q2 (*Engineering, Biomedical*)

**Rapid Publication:** manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.6 days after submission; acceptance to publication is undertaken in 3.1 days (median values for papers published in this journal in the first half of 2024).
