

## Special Issue

# Engineered Microenvironments for 3D Cell Culture and Regenerative Medicine

### Message from the Guest Editor

The Special Issue on the “Engineered microenvironments for 3D cell culture and regenerative medicine” is open for the original papers and reviews. The topics and themes of this unique collection will include but not limited to, the following:

- Quantitative studies revealing the role of multiple controlled interacting factors in cell biological behaviour modulation in the context of normal and pathological tissue growth.
- Comparative studies of different types of engineered 3D cell culture microenvironments.
- Biological accuracy and relevance of 3D engineered cell culture microenvironments.
- Industrial applications and clinical translation of the results obtained using 3D engineered cell culture microenvironments.
- Advanced and innovative research applications of 3D engineered cell culture microenvironments.
- Reconstruction of functional tissues for regenerative medicine applications.
- Methodology for the analysis of the biological, physical, chemical, and material parameters of 3D engineered microenvironments for cell culture and regenerative medicine.

---

### Guest Editor

Dr. Anna E. Guller

1. The Graduate School of Biomedical Engineering, University of New South Wales, Sydney, Australia
2. Institute for Regenerative Medicine, Sechenov University, Moscow, Russia

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Bioengineering* (ISSN 2306-5354). *Bioengineering* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. *Bioengineering* provides an advanced forum for the science and technology of bioengineering. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Anthony Guiseppi-Elie

Department of Biomedical Engineering, Texas A&M University, College Station, TX 77843, USA

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, Inspec, and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Biomedical)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.4 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the second half of 2024).
