

Special Issue

Advanced Therapeutics Processing and Manufacturing

Message from the Guest Editors

We are pleased to announce a novel Special Issue in *Bioengineering* focusing on “Advanced Therapeutics Processing and Manufacturing”. This Special Issue covers research on bioprocesses for the generation of advanced therapeutics, such as targeted drug delivery, cellular and genetic therapies, follow-on biologics (biosimilars and biobetters), personalized medicines, nanomedicines, and combination therapies, as well as pharmacology, toxicology and drug discovery. Authors are invited to contribute original research papers, review articles, and short communications focusing on the process development and manufacturing of advanced therapeutics for biopharmaceutical applications. Our intention with this Special Issue is to address the key challenges and improvements for implementing novel technologies and process unit operations for this class of biologics, connecting scientific academic knowledge to the biopharma industry.

Guest Editors

Dr. João Henrique Picado Madalena Santos

School of Pharmaceutical Sciences, University of São Paulo, São Paulo, Brazil

Prof. Dr. Carlota O. Rangel-Yagui

Department of Pharmaceutical and Biochemical Technology University of São Paulo, São Paulo, Brazil

Deadline for manuscript submissions

closed (30 November 2022)

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Bioengineering* (ISSN 2306-5354). *Bioengineering* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. *Bioengineering* provides an advanced forum for the science and technology of bioengineering. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Anthony Guiseppi-Elie

Department of Biomedical Engineering, Texas A&M University, College Station, TX 77843, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Biomedical) Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.6 days after submission; acceptance to publication is undertaken in 3.1 days (median values for papers published in this journal in the first half of 2024).

Recognition of Reviewers:

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
