Young Researchers in Ecology

Guest Editor:

Prof. Dr. Panayiotis G. Dimitrakopoulos

Biodiversity Conservation
Laboratory, Department of
Environment, University of the
Aegean, 81132 Mytilene, Greece

Deadline for manuscript
submissions:

31 July 2025

Message from the Guest Editor

In this Special Issue, we aim to feature early-career researchers in Ecology. The senior author(s) of each contribution should be (a) the first or last author as well as the corresponding author and (b) be within 10 years of completing their Ph.D. (or equivalent) or becoming an assistant professor/on track to make tenure. We invite manuscripts from diverse research fields in ecology (e.g., functional ecology, population ecology, community ecology, ecosystem ecology, landscape ecology, evolutionary ecology, conservation ecology, global change ecology, restoration ecology, and macroecology). Manuscripts, including those with theoretical, analytical, experimental, and empirical approaches, are welcome. Applied ecology issues with implications for environmental/conservation policy or natural resource management are also acceptable. There is no restriction on the types of organisms or ecosystems that can be studied.

The authors featured in this Special Issue will have the opportunity to be nominated for next year's Young Investigator Award.

Editors-in-Chief

Prof. Dr. Jukka Finne

Research Programme in
Molecular and Integrative
Biosciences, Faculty of Biological
and Environmental Sciences,
University of Helsinki, P.O. Box
56, FI-00014 Helsinki, Finland

Prof. Dr. Andrés Moya

Integrative Systems Biology
Institute, University of Valencia
and CSIC, 46980 Valencia, Spain

Message from the Editorial Board

A major strength of biological science is the diversity of approaches that biological scientists apply to their research problems. *Biology* reflects this diversity and brings together studies employing the varied experimental and theoretical approaches that are fueling biological discovery. *Biology*, the journal, is a fully peer-reviewed publication with a rapid and economical route to open access publication and is listed on PubMed. All articles are peer-reviewed and the editorial focus is on determining that the work is scientifically sound rather than trying to predict its future impact.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Biology) / CiteScore - Q1 (General Agricultural and Biological Sciences)
