The Role of Extracellular Vesicles in Cancer Metastasis

Guest Editor:

Dr. Karan Shah

The Medical School, University of
Sheffield, Sheffield S10 2TN, UK

Deadline for manuscript
submissions:

9 December 2024

Message from the Guest Editor

Dear Colleagues,

We're curating a Special Issue on extracellular vesicles (EVs) in cancer metastasis for *Biology*. EVs, vital for intercellular communication, play a crucial role in cancer pathophysiology. Tumor-derived EVs create conducive environments for cargo transport, aiding cancer survival and metastasis. We invite high-quality research or reviews on EVs' impact on cancer progression, including topics like tumor microenvironment modulation, EV-mediated immunosuppression, premetastatic niche formation, liquid biopsies, and biomarkers.

Message from the Editorial Board

A major strength of biological science is the diversity of approaches that biological scientists apply to their research problems. *Biology* reflects this diversity and brings together studies employing the varied experimental and theoretical approaches that are fueling biological discovery. *Biology*, the journal, is a fully peer-reviewed publication with a rapid and economical route to open access publication and is listed on PubMed. All articles are peer-reviewed and the editorial focus is on determining that the work is scientifically sound rather than trying to predict its future impact.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Biology) / CiteScore - Q1 (General Agricultural and Biological Sciences)
