## Advances in COVID-19-Related Myocarditis

Guest Editor:

### **Dr. Kathleen Pappritz**

1. Campus Virchow Klinikum (CVK), Berlin Institute of Health (BIH) Center for Regenerative Therapies (BCRT), Charité—Universitätsmedizin Berlin, 10017 Berlin, Germany  
2. German Center for Cardiovascular Research (DZHK), Partner Site Berlin, 10017 Berlin, Germany

Deadline for manuscript submissions:

**closed (30 June 2022)**

### **Message from the Guest Editor**

Clinical manifestation of COVID-19-associated heart diseases includes the occurrence of impaired cardiac function, elevated troponin levels, arrhythmia, up to myocarditis. It is suggested to be due to direct viral damage and myocardial injury mediated by cardiomyocyte apoptosis and disruption, myocardial interstitial fibrosis, endothelial inflammation, exaggerated cytokine response, and/or the host's immune response.

This Special Issue will feature the latest scientific research in COVID-19-associated heart disease, including myocarditis. The vision of this Special Issue is to bring clinicians and basic scientists such as biologists, immunologists together, to update readers with the current knowledge of COVID-19-associated heart disease. Original research, review articles, case reports, communication and study protocols are welcome.

## Editors-in-Chief

### Prof. Dr. Jukka Finne

Research Programme in  
Molecular and Integrative  
Biosciences, Faculty of Biological  
and Environmental Sciences,  
University of Helsinki, P.O. Box  
56, FI-00014 Helsinki, Finland

### Prof. Dr. Andrés Moya

Integrative Systems Biology  
Institute, University of Valencia  
and CSIC, 46980 Valencia, Spain

## Message from the Editorial Board

A major strength of biological science is the diversity of approaches that biological scientists apply to their research problems. *Biology* reflects this diversity and brings together studies employing the varied experimental and theoretical approaches that are fueling biological discovery. *Biology*, the journal, is a fully peer-reviewed publication with a rapid and economical route to open access publication and is listed on PubMed. All articles are peer-reviewed and the editorial focus is on determining that the work is scientifically sound rather than trying to predict its future impact.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (Biology) / CiteScore - Q1 (General Agricultural and Biological Sciences)
