Deadline for manuscript
submissions:

closed (30 January 2023)

Message from the Guest Editors

The year 2021 marks the 10th anniversary of *Biology*, a peer-reviewed open access journal on biological sciences. *Biology* has published more than 1200 papers from more than 8300 authors. We are grateful to every author, reviewer, and academic editor whose support has made us where we are today.

This Special Issue aims to bring new research focused on the studies of the innate immune system using zebrafish models, as well as to consolidate and disseminate the state-of-the-art of the field via review articles. We encourage submissions of articles on topics that directly or indirectly affect the zebrafish as a preclinical model for immune diseases, such as tissue damage, inflammation and its resolution, and new tools and advances in genetic and imaging techniques that may translate into new insights on our knowledge of the vertebrate immune system.

Special Issue

an Open Access Journal by MDPI

Editors-in-Chief

Prof. Dr. Jukka Finne

Research Programme in
Molecular and Integrative
Biosciences, Faculty of Biological
and Environmental Sciences,
University of Helsinki, P.O. Box
56, FI-00014 Helsinki, Finland

Prof. Dr. Andrés Moya

Integrative Systems Biology
Institute, University of Valencia
and CSIC, 46980 Valencia, Spain

Message from the Editorial Board

A major strength of biological science is the diversity of approaches that biological scientists apply to their research problems. *Biology* reflects this diversity and brings together studies employing the varied experimental and theoretical approaches that are fueling biological discovery. *Biology*, the journal, is a fully peer-reviewed publication with a rapid and economical route to open access publication and is listed on PubMed. All articles are peer-reviewed and the editorial focus is on determining that the work is scientifically sound rather than trying to predict its future impact.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Biology) / CiteScore - Q1 (General Agricultural and Biological Sciences)
