Message from the Guest Editor

Dear Colleagues,

This special issue on the evolution of mating choice will span a taxonomic range of organisms and will reflect the current state of the field. It will explore subtopics such as communication in mate choice, cryptic female choice, male mate choice, character displacement and mate choice, mate-choice copying, communication in mate choice, and models for the evolution of choice.

Dr. Ann Hedrick

Guest Editor

- Mate choice
- Female choice
- Sexual selection

Message from the Editorial Board

A major strength of biological science is the diversity of approaches that biological scientists apply to their research problems. *Biology* reflects this diversity and brings together studies employing the varied experimental and theoretical approaches that are fueling biological discovery. *Biology*, the journal, is a fully peer-reviewed publication with a rapid and economical route to open access publication and is listed on PubMed. All articles are peer-reviewed and the editorial focus is on determining that the work is scientifically sound rather than trying to predict its future impact.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Biology) / CiteScore - Q1 (General Agricultural and Biological Sciences)
