an Open Access Journal by MDPI

Membrane Protein Structure and Dynamics from In Silico to In Vivo, from Cryo-EM, to Single Molecule Imaging

Guest Editor:

Prof. Dr. Andrew Clayton

Optical Sciences Centre, School of Science, Computing and Engineering Technologies, Swinburne University of Technology, Melbourne, Australia

Deadline for manuscript submissions:

closed (15 May 2020)

Message from the Guest Editor

Dear Colleagues,

Membrane proteins perform many important biological processes, such as ion transport, electrical excitability, cell communication, signal transduction, and protein secretion, and are associated with diseases like heart disease, cancer, neurodegenerative diseases, etc.

Current imaging, diffraction, spectroscopy, and computational methods allow near atomic resolution models of membrane proteins to be curated, revealing key aspects of their structure and functionally important dynamics. This Special Issue welcomes the submission of original research and review manuscripts focusing on the advances in the membrane protein structure and dynamics.

Prof. Dr. Andrew Clayton

Special Issue

an Open Access Journal by MDPI

Editors-in-Chief

Prof. Dr. Jukka Finne

Research Programme in
Molecular and Integrative
Biosciences, Faculty of Biological
and Environmental Sciences,
University of Helsinki, P.O. Box
56, FI-00014 Helsinki, Finland

Prof. Dr. Andrés Moya

Integrative Systems Biology
Institute, University of Valencia
and CSIC, 46980 Valencia, Spain

Message from the Editorial Board

A major strength of biological science is the diversity of approaches that biological scientists apply to their research problems. *Biology* reflects this diversity and brings together studies employing the varied experimental and theoretical approaches that are fueling biological discovery. *Biology*, the journal, is a fully peer-reviewed publication with a rapid and economical route to open access publication and is listed on PubMed. All articles are peer-reviewed and the editorial focus is on determining that the work is scientifically sound rather than trying to predict its future impact.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Biology) / CiteScore - Q1 (General Agricultural and Biological Sciences)
