Deciphering the Process and Mechanisms of Virus Infection in Host Cells

Guest Editor:

Dr. Xin Zhao

CAS Key Laboratory of Pathogen Microbiology and Immunology, Institute of Microbiology, Chinese Academy of Sciences, Beijing 100101, China

Deadline for manuscript submissions:

31 January 2025

Message from the Guest Editor

Viruses continue to pose an increasing threat worldwide. Viral pandemics are causing severe diseases in humans and significant commercial losses. However, the processes and mechanisms of virus infection remain largely unknown, thus greatly impeding the development of drugs, vaccines, and strategies for virus control.

We are delighted to extend an invitation to you to publish your latest research in our Special Issue, which aims to further decipher the processes and mechanisms implicated in virus infection in host cells.

In this Special Issue, we welcome original research articles and reviews covering a wide range of topics, including, but not limited to, the following: the mechanisms of virus infection and pathology, the virus life cycle, virus genetics and evolution, and virus–host interactions.

Editors-in-Chief

Prof. Dr. Jukka Finne

Research Programme in
Molecular and Integrative
Biosciences, Faculty of Biological
and Environmental Sciences,
University of Helsinki, P.O. Box
56, FI-00014 Helsinki, Finland

Prof. Dr. Andrés Moya

Integrative Systems Biology
Institute, University of Valencia
and CSIC, 46980 Valencia, Spain

Message from the Editorial Board

A major strength of biological science is the diversity of approaches that biological scientists apply to their research problems. *Biology* reflects this diversity and brings together studies employing the varied experimental and theoretical approaches that are fueling biological discovery. *Biology*, the journal, is a fully peer-reviewed publication with a rapid and economical route to open access publication and is listed on PubMed. All articles are peer-reviewed and the editorial focus is on determining that the work is scientifically sound rather than trying to predict its future impact.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Biology) / CiteScore - Q1 (General Agricultural and Biological Sciences)
