New Trends in Precision Medicine, Dentistry and Oral Health

Guest Editors:

Dr. Stefania Cantore

Regional Dental Community Service "Sorriso & Benessere - Ricerca e Clinica", 70129 Bari, Italy

Prof. Lucio Quagliuolo

Department of Precision Medicine, University of Campania "Luigi Vanvitelli", Naples, Italy

Dr. Mariarosaria Boccellino

Department of Precision Medicine, University of Campania "Luigi Vanvitelli", 80138 Naples, Italy

Deadline for manuscript submissions:

closed (1 June 2022)

Message from the Guest Editors

Precision medicine has emerged as a powerful model that focuses on how biomolecular factors can influence individual responses to different medications/therapies affecting drug efficacy, side effects and adverse events related to therapy. The long-term goal of the research being conducted is the identification of responders and non-responders to therapy and, thus, the avoidance of adverse events and the optimization of drug/therapeutic doses.

Moreover, dentistry—and in particular, oral health—is recognized by the WHO as a significant part of the Global Oral Health Program, has important implications for the clinical practice of medicine and dental research. Oral health maintenance—by means of a diagnostic, rehabilitative, therapeutic or surgical approach—is an integral part of general human health and well-being.

This Special Issue seeks research papers on various aspects related to the emerging field of precision medicine, dentistry and oral health,

We welcome submissions of original research papers using different study designs, including systematic reviews and meta-analyses, methodological papers, and manuscripts that emphasize theoretical content.

Special Issue

an Open Access Journal by MDPI

Editors-in-Chief

Prof. Dr. Jukka Finne

Research Programme in
Molecular and Integrative
Biosciences, Faculty of Biological
and Environmental Sciences,
University of Helsinki, P.O. Box
56, FI-00014 Helsinki, Finland

Prof. Dr. Andrés Moya

Integrative Systems Biology
Institute, University of Valencia
and CSIC, 46980 Valencia, Spain

Message from the Editorial Board

A major strength of biological science is the diversity of approaches that biological scientists apply to their research problems. *Biology* reflects this diversity and brings together studies employing the varied experimental and theoretical approaches that are fueling biological discovery. *Biology*, the journal, is a fully peer-reviewed publication with a rapid and economical route to open access publication and is listed on PubMed. All articles are peer-reviewed and the editorial focus is on determining that the work is scientifically sound rather than trying to predict its future impact.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Biology) / CiteScore - Q1 (General Agricultural and Biological Sciences)
