Message from the Guest Editors

The purpose of the present Special Issue, "Hair Loss: From Pathophysiology to Therapeutic Perspectives", will be the deepening of current therapeutic practices in the field of trichology, with particular attention to the latest innovations, aiming at providing a comprehensive vision of the field with updates on new developments in terms of pathogenesis, clinical, and diagnostics. Particular attention will be paid to the involvement of the microbiota on the health of the scalp and its implications in the manifestation and exacerbation of scalp pathologies.

- hair
- immunoprivilege
- alopecia
- alopecia areata
- lichen planopilaris
- microbiota
- probiotics
- PRP

Message from the Editor-in-Chief

Biomedicines (ISSN 2227-9059) is an open access journal devoted to all aspects of research on human health and disease, the discovery and characterization of new therapeutic targets, therapeutic strategies, and research of naturally driven biomedicines, pharmaceuticals, and biopharmaceutical products. Topics include pathogenesis mechanisms of diseases, translational medical research, biomaterial in biomedical research, natural bioactive molecules, biologics, vaccines, gene therapies, cell-based therapies, targeted specific antibodies, recombinant therapeutic proteins, nanobiotechnology driven products, targeted therapy, bioimaging, biosensors, biomarkers, and biosimilars. The journal is open for publication of studies conducted at the basic science and preclinical research levels. We invite you to consider submitting your work to *Biomedicines*, be it original research, review articles, or developing Special Issues of current key topics.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within *Scopus*, *SCIE (Web of Science)*, *PubMed*, *PMC*, *CAPLus / SciFinder*, and other databases.

Journal Rank: JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q2 (*Medicine (miscellaneous)*)
