## Medicinal Chemistry in Drug Design and Discovery

Guest Editor:

### Dr. Małgorzata Jarończyk

Department of Biomedical  
Research, National Medicines  
Institute, Chełmska 30/34, 00-725  
Warsaw, Poland

Deadline for manuscript  
submissions:

**closed (30 September 2024)**

### Message from the Guest Editor

This issue will mainly focus on novel achievements in drug design and discovery and the elucidation of drug action and safety. Articles are sought which emphasize research on structure–activity relationships, investigations of biochemical and pharmacological targets of drug action, and correlations of structures with the mode of action of biologically active compounds.

The purpose of this Special Issue is to publish studies on the current developments in drug design, synthetic chemistry, virtual screening, combinatorial chemistry, drug targets, and the structure–activity relationship. Original research and review articles summarizing all aspects of medicinal chemistry using experimental and theoretical methods are welcome.

## Message from the Editor-in-Chief

*Biomedicines* (ISSN 2227-9059) is an open access journal devoted to all aspects of research on human health and disease, the discovery and characterization of new therapeutic targets, therapeutic strategies, and research of naturally driven biomedicines, pharmaceuticals, and biopharmaceutical products. Topics include pathogenesis mechanisms of diseases, translational medical research, biomaterial in biomedical research, natural bioactive molecules, biologics, vaccines, gene therapies, cell-based therapies, targeted specific antibodies, recombinant therapeutic proteins, nanobiotechnology driven products, targeted therapy, bioimaging, biosensors, biomarkers, and biosimilars. The journal is open for publication of studies conducted at the basic science and preclinical research levels. We invite you to consider submitting your work to *Biomedicines*, be it original research, review articles, or developing Special Issues of current key topics.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within *Scopus*, *SCIE (Web of Science)*, *PubMed*, *PMC*, *CAPLus / SciFinder*, and other databases.

**Journal Rank:** JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Medicine (miscellaneous))
