Diagnosis and Treatment of Skin Diseases in Light of Molecular Medicine

Guest Editor:

Dr. Olga Simionescu

Chief of the First Clinic of Dermatology, Department of Dermatology, “Carol Davila” University of Medicine and Pharmacy, Colentina Hospital, 020125 Bucharest, Romania

Deadline for manuscript submissions:

closed (31 January 2024)

Message from the Guest Editor

Dear Colleagues,

Dermatology is an ongoing field, with more and more precise reclassifications. This tremendous progress has a solid foundation: a greater understanding of molecular mechanisms. Nowadays, diagnostic methods have gained accuracy and enable rapid global interconnection between individuals within different continents. Targeting molecules in psoriasis, atopic dermatitis, and melanoma opens the door toward an immunological approach to the skin, an amazing immune organ. The escape mechanisms of sexually transmitted disease pathogens or detailed characterizations of herpetic viruses (e.g., Epstein–Barr as number four, CMV as number five) are topics of interest that move forward in this field.

We look forward to receiving original papers and literature reviews that use molecular medicine and clinical experience.

Dr. Olga Simionescu

Message from the Editor-in-Chief

Biomedicines (ISSN 2227-9059) is an open access journal devoted to all aspects of research on human health and disease, the discovery and characterization of new therapeutic targets, therapeutic strategies, and research of naturally driven biomedicines, pharmaceuticals, and biopharmaceutical products. Topics include pathogenesis mechanisms of diseases, translational medical research, biomaterial in biomedical research, natural bioactive molecules, biologics, vaccines, gene therapies, cell-based therapies, targeted specific antibodies, recombinant therapeutic proteins, nanobiotechnology driven products, targeted therapy, bioimaging, biosensors, biomarkers, and biosimilars. The journal is open for publication of studies conducted at the basic science and preclinical research levels. We invite you to consider submitting your work to *Biomedicines*, be it original research, review articles, or developing Special Issues of current key topics.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within *Scopus*, *SCIE (Web of Science)*, *PubMed*, *PMC*, *CAPLus / SciFinder*, and other databases.

Journal Rank: JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q2 (*Medicine (miscellaneous)*)
