### Message from the Collection Editors

Dear Colleagues,

This topical collection shall cover all aspects of Gestational Diabetes mellitus (GDM) of the expecting mother, the placenta and her fetus(es). We welcome articles on basic science, including genetics, (patho-) physiology, and related clinical research.

Original research articles are preferred. Reviews will be considered as long as they provide novel aspects and suggestions for future research. Comments on controversial issues are regarded as contributions to scientific progress and are within the scope of the topical collection.

Prof. Dr. Herbert Fluhr

Prof. Dr. Gernot Desoye

## Message from the Editor-in-Chief

*Biomedicines* (ISSN 2227-9059) is an open access journal devoted to all aspects of research on human health and disease, the discovery and characterization of new therapeutic targets, therapeutic strategies, and research of naturally driven biomedicines, pharmaceuticals, and biopharmaceutical products. Topics include pathogenesis mechanisms of diseases, translational medical research, biomaterial in biomedical research, natural bioactive molecules, biologics, vaccines, gene therapies, cell-based therapies, targeted specific antibodies, recombinant therapeutic proteins, nanobiotechnology driven products, targeted therapy, bioimaging, biosensors, biomarkers, and biosimilars. The journal is open for publication of studies conducted at the basic science and preclinical research levels. We invite you to consider submitting your work to *Biomedicines*, be it original research, review articles, or developing Special Issues of current key topics.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within *Scopus*, *SCIE (Web of Science)*, *PubMed*, *PMC*, *CAPLus / SciFinder*, and other databases.

**Journal Rank:** JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q2 (*Medicine (miscellaneous)*)
