Deadline for manuscript
submissions:

closed (30 June 2022)

Message from the Guest Editor

Dear Colleagues,

Parathyroid gland disorders are particular conditions with an incidence that displays great variability among populations. The imbalance of calcium metabolism due to these pathological conditions can affect the health of many biological systems, such as bone, kidneys, heart, cardiovascular and neurological ones.

Despite the medical progress achieved in recent years, there are still many gaps in the knowledge, mainly regarding natural history and the potential chronic complications of these diseases.

Therefore, we cordially invite authors and investigators from this complex and fascinating field of interest to submit original research or review articles to this Special Issue. New basic or clinical studies on pathogenesis, diagnosis, and complications of parathyroid gland diseases will be taken into consideration.

Message from the Editor-in-Chief

Biomedicines (ISSN 2227-9059) is an open access journal devoted to all aspects of research on human health and disease, the discovery and characterization of new therapeutic targets, therapeutic strategies, and research of naturally driven biomedicines, pharmaceuticals, and biopharmaceutical products. Topics include pathogenesis mechanisms of diseases, translational medical research, biomaterial in biomedical research, natural bioactive molecules, biologics, vaccines, gene therapies, cell-based therapies, targeted specific antibodies, recombinant therapeutic proteins, nanobiotechnology driven products, targeted therapy, bioimaging, biosensors, biomarkers, and biosimilars. The journal is open for publication of studies conducted at the basic science and preclinical research levels. We invite you to consider submitting your work to *Biomedicines*, be it original research, review articles, or developing Special Issues of current key topics.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within *Scopus*, *SCIE (Web of Science)*, *PubMed*, *PMC*, *CAPLus / SciFinder*, and other databases.

Journal Rank: JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q2 (*Medicine (miscellaneous)*)
