Deadline for manuscript
submissions:

closed (31 March 2024)

Message from the Guest Editor

Dear Colleagues,

The Special Issue *Pathogenetic Aspects of Cardiovascular and Gastrointestinal Diseases* will focus on fields of internal medicine that are currently most studied, namely nonalcoholic fatty liver disease (NAFLD), gut microbiota, and circulatory disorders. It is well established that NAFLD and arterial hypertension are common signs of metabolic syndrome, a condition associated with a greater potential of developing type 2 diabetes, lipid disorders, and cardiovascular disease. In addition, increasing evidence suggests an important role for gut microbiota in the aforementioned conditions as well as in other noncommunicable diseases.

This Special Issue will constitute an interdisciplinary research space for the studies on molecular basis, pathophysiology in gastrointestinal and cardiovascular diseases. Original research and review articles covering these topics are welcome for submission to this Special Issue.

Dr. Anton R. Kiselev

Message from the Editor-in-Chief

Biomedicines (ISSN 2227-9059) is an open access journal devoted to all aspects of research on human health and disease, the discovery and characterization of new therapeutic targets, therapeutic strategies, and research of naturally driven biomedicines, pharmaceuticals, and biopharmaceutical products. Topics include pathogenesis mechanisms of diseases, translational medical research, biomaterial in biomedical research, natural bioactive molecules, biologics, vaccines, gene therapies, cell-based therapies, targeted specific antibodies, recombinant therapeutic proteins, nanobiotechnology driven products, targeted therapy, bioimaging, biosensors, biomarkers, and biosimilars. The journal is open for publication of studies conducted at the basic science and preclinical research levels. We invite you to consider submitting your work to *Biomedicines*, be it original research, review articles, or developing Special Issues of current key topics.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within *Scopus*, *SCIE (Web of Science)*, *PubMed*, *PMC*, *CAPLus / SciFinder*, and other databases.

Journal Rank: JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q2 (*Medicine (miscellaneous)*)
