Deadline for manuscript submissions:  
**closed (29 February 2024)**

### Message from the Guest Editor

Dear colleagues,

Prostate cancer remains the second most common cancer in men, with a diverse course from indolent cases to lethal disease. Understanding of prostate cancer biology, genetics, and molecular pathology has emerged, and several new drugs have improved outcomes of metastatic castrate-resistant prostate cancer. However, several tasks remain to be completed. This Special Issue aims to publish cutting-edge research on preclinical studies on prostate cancer, including a comprehensive overview of tumor progression in association with the tumor microenvironment, metabolism, metastatic process, cancer treatment, immune response, or drug resistance. Review articles as well as original studies will be considered for publication. We hope that both academy and clinics working on prostate cancer will find this platform useful. We look forward to receiving exceptional submissions.

## Message from the Editor-in-Chief

*Biomedicines* (ISSN 2227-9059) is an open access journal devoted to all aspects of research on human health and disease, the discovery and characterization of new therapeutic targets, therapeutic strategies, and research of naturally driven biomedicines, pharmaceuticals, and biopharmaceutical products. Topics include pathogenesis mechanisms of diseases, translational medical research, biomaterial in biomedical research, natural bioactive molecules, biologics, vaccines, gene therapies, cell-based therapies, targeted specific antibodies, recombinant therapeutic proteins, nanobiotechnology driven products, targeted therapy, bioimaging, biosensors, biomarkers, and biosimilars. The journal is open for publication of studies conducted at the basic science and preclinical research levels. We invite you to consider submitting your work to *Biomedicines*, be it original research, review articles, or developing Special Issues of current key topics.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within *Scopus*, *SCIE (Web of Science)*, *PubMed*, *PMC*, *CAPLus / SciFinder*, and other databases.

**Journal Rank:** JCR - Q2 (Pharmacology and Pharmacy) / CiteScore - Q1 (Medicine (miscellaneous))
