Department of Neonatology,
Medical University in Szczecin,
Poland, Poland

Dr. Andrzej Torbé

Department of Obstetrics and
Gynecology, Pomeranian Medical
University, Szczecin, Poland

Deadline for manuscript
submissions:

closed (30 November 2023)

Message from the Guest Editors

In recent years, attention has been paid to the role of the microbiome in the pathogenesis of many pathological conditions. There are also studies on the microbiome in the context of maternal-fetal medicine. A relationship is sought between the type of bacteria inhabiting the gastrointestinal tract of women and the occurrence of obesity, gestational diabetes, or premature birth, as well as hypoxia and intrauterine infection. Other metabolomes, such as maternal and newborn urine, amniotic fluid, human breast milk, and meconium of the newborn, are also tested. In research on the microbiome in the newborn, the relationship with civilization diseases, infections, and eating disorders is sought. Is it possible to get closer to personalized medicine by using metabolomics?

Message from the Editor-in-Chief

Biomedicines (ISSN 2227-9059) is an open access journal devoted to all aspects of research on human health and disease, the discovery and characterization of new therapeutic targets, therapeutic strategies, and research of naturally driven biomedicines, pharmaceuticals, and biopharmaceutical products. Topics include pathogenesis mechanisms of diseases, translational medical research, biomaterial in biomedical research, natural bioactive molecules, biologics, vaccines, gene therapies, cell-based therapies, targeted specific antibodies, recombinant therapeutic proteins, nanobiotechnology driven products, targeted therapy, bioimaging, biosensors, biomarkers, and biosimilars. The journal is open for publication of studies conducted at the basic science and preclinical research levels. We invite you to consider submitting your work to *Biomedicines*, be it original research, review articles, or developing Special Issues of current key topics.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within *Scopus*, *SCIE (Web of Science)*, *PubMed*, *PMC*, *CAPLus / SciFinder*, and other databases.

Journal Rank: JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q2 (*Medicine (miscellaneous)*)
