## Regulation of Keap1-Nrf2 Signaling in Health and Diseases

Guest Editors:

### **Dr. Gobinath Shanmugam**

Division of Cardiovascular Diseases, Department of Medicine, The University of Alabama at Birmingham, Birmingham, AL, USA

### **Dr. Kishore Kumar S. Narasimhan**

Department of Pharmacology and Neurosciences, Creighton University, 2500 California Plaza, Omaha, NE, USA

Deadline for manuscript submissions:

**closed (30 June 2023)**

### **Message from the Guest Editors**

In this Special Issue, we invite researchers worldwide to submit original research articles, brief reports and review articles that describe the role of Nrf2 signaling in redox metabolism; cardiac function and diseases including myocardial infarction, hypertrophy, atherosclerosis, etc.; neuronal function and diseases including neurodegenerative diseases, neurodevelopmental disorders, neuroplasticity and synaptic transmission, neuropathic pain, etc.; various cancer pathologies and metabolic disorders including diabetes and obesity, inflammation, etc. In addition, we welcome articles that investigate potential natural or synthetic compounds that can activate/deactivate Nrf2-signaling, thereby preventing/leading to the progression of these diseases.

USA

## Message from the Editor-in-Chief

*Biomedicines* (ISSN 2227-9059) is an open access journal devoted to all aspects of research on human health and disease, the discovery and characterization of new therapeutic targets, therapeutic strategies, and research of naturally driven biomedicines, pharmaceuticals, and biopharmaceutical products. Topics include pathogenesis mechanisms of diseases, translational medical research, biomaterial in biomedical research, natural bioactive molecules, biologics, vaccines, gene therapies, cell-based therapies, targeted specific antibodies, recombinant therapeutic proteins, nanobiotechnology driven products, targeted therapy, bioimaging, biosensors, biomarkers, and biosimilars. The journal is open for publication of studies conducted at the basic science and preclinical research levels. We invite you to consider submitting your work to *Biomedicines*, be it original research, review articles, or developing Special Issues of current key topics.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within *Scopus*, *SCIE (Web of Science)*, *PubMed*, *PMC*, *CAPLus / SciFinder*, and other databases.

**Journal Rank:** JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q2 (*Medicine (miscellaneous)*)
