Message from the Guest Editor

Dear Colleagues,

This Special Issue will focus on “Adiponectin and Its Receptor Interactions in Human Disease”.

Adiponectin is the most abundant adipocytokine. Through its receptors, it can mediate a variety of protective actions in various organs. Significantly, with increased adiposity, serum adiponectin levels fall and dysregulated inflammation and metabolism can ensue, and manifest as human disease. There is intense interest in targeting increases in adiponectin levels and signaling to alleviate disease.

Thus, for this Special Issue, we cordially invite authors in the field to submit original research or review articles pertaining to this important and fast-progressing field of biomedicine.

Dr. Lionel Hebbard

Message from the Editor-in-Chief

Biomedicines (ISSN 2227-9059) is an open access journal devoted to all aspects of research on human health and disease, the discovery and characterization of new therapeutic targets, therapeutic strategies, and research of naturally driven biomedicines, pharmaceuticals, and biopharmaceutical products. Topics include pathogenesis mechanisms of diseases, translational medical research, biomaterial in biomedical research, natural bioactive molecules, biologics, vaccines, gene therapies, cell-based therapies, targeted specific antibodies, recombinant therapeutic proteins, nanobiotechnology driven products, targeted therapy, bioimaging, biosensors, biomarkers, and biosimilars. The journal is open for publication of studies conducted at the basic science and preclinical research levels. We invite you to consider submitting your work to *Biomedicines*, be it original research, review articles, or developing Special Issues of current key topics.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within *Scopus*, *SCIE (Web of Science)*, *PubMed*, *PMC*, *CAPlus / SciFinder*, and other databases.

Journal Rank: JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q2 (*Medicine (miscellaneous)*)
