Republic

Deadline for manuscript
submissions:

closed (18 February 2022)

Message from the Guest Editor

Dear Colleagues,

Since 1996, the number of publications on “cell motility” has increased fourfold in biomedical research, particularly in cell biology, oncology, and also in biochemistry molecular biology (Web of Science). The increased interest was mainly driven by the need to complement significant progress in molecular genetics but also by emerging tools facilitating the analysis. The introduction of digital cameras in time-lapse light microscopy, fluorescence labeling of live cells, and quantitative phase imaging have also led to new accuracy in cell motility measurements. This Special Issue will be an interdisciplinary research space for research on a molecular basis, pathology, and technologies in cell motility.

Message from the Editor-in-Chief

Biomedicines (ISSN 2227-9059) is an open access journal devoted to all aspects of research on human health and disease, the discovery and characterization of new therapeutic targets, therapeutic strategies, and research of naturally driven biomedicines, pharmaceuticals, and biopharmaceutical products. Topics include pathogenesis mechanisms of diseases, translational medical research, biomaterial in biomedical research, natural bioactive molecules, biologics, vaccines, gene therapies, cell-based therapies, targeted specific antibodies, recombinant therapeutic proteins, nanobiotechnology driven products, targeted therapy, bioimaging, biosensors, biomarkers, and biosimilars. The journal is open for publication of studies conducted at the basic science and preclinical research levels. We invite you to consider submitting your work to *Biomedicines*, be it original research, review articles, or developing Special Issues of current key topics.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within *Scopus*, *SCIE (Web of Science)*, *PubMed*, *PMC*, *CAPLus / SciFinder*, and other databases.

Journal Rank: JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q2 (*Medicine (miscellaneous)*)
