## Molecular and Cellular Mechanisms of Infertility

Guest Editor:

### Dr. Ying-Hung Lin

Graduate Institute of Biomedical  
and Pharmaceutical Science, Fu  
Jen Catholic University, New  
Taipei City 242, Taiwan

### Message from the Guest Editor

We invite investigators to contribute original research and/or review articles that are involved in elucidating the possible molecular and cellular roles of genes, proteins, or signal pathways related to mammalian reproduction and/or infertility. The topics of interest include, but are not limited to, the listed topics below.

Deadline for manuscript  
submissions:

**closed (31 July 2022)**

- Clarifying the roles of genes, proteins, or signal pathways involved in reproduction;
- Identifying or characterizing genetic mutations in infertility;
- New technologies used for determining the pathological causes of infertility, e.g., next-generation sequencing, target sequencing, knockout mice models.

## Message from the Editor-in-Chief

*Biomedicines* (ISSN 2227-9059) is an open access journal devoted to all aspects of research on human health and disease, the discovery and characterization of new therapeutic targets, therapeutic strategies, and research of naturally driven biomedicines, pharmaceuticals, and biopharmaceutical products. Topics include pathogenesis mechanisms of diseases, translational medical research, biomaterial in biomedical research, natural bioactive molecules, biologics, vaccines, gene therapies, cell-based therapies, targeted specific antibodies, recombinant therapeutic proteins, nanobiotechnology driven products, targeted therapy, bioimaging, biosensors, biomarkers, and biosimilars. The journal is open for publication of studies conducted at the basic science and preclinical research levels. We invite you to consider submitting your work to *Biomedicines*, be it original research, review articles, or developing Special Issues of current key topics.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within *Scopus*, *SCIE (Web of Science)*, *PubMed*, *PMC*, *CAPLus / SciFinder*, and other databases.

**Journal Rank:** JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q2 (*Medicine (miscellaneous)*)
