2. Fraunhofer Institute for Translational Medicine and Pharmacology ITMP, Frankfurt am Main, Germany

Deadline for manuscript submissions:

closed (31 December 2024)

Message from the Guest Editor

Dear Colleagues,

The Editor's Choice Series for the Applied Biomedical Data Science Section presents a curated collection showcasing pioneering methodologies driving the intersection of data science and biomedical research. This Special Issue focuses on innovative approaches, techniques, and tools applied in the realm of data science to unravel complex biological phenomena, facilitate medical discoveries, and improve healthcare outcomes.

Encompassing fields such as big data analytics, machine learning applications, computational modeling, data-driven diagnostics, and bioinformatics, this series offers an extensive exploration of methodologies transforming biomedical data into actionable insights. From predictive modeling for disease prognosis to novel algorithms enhancing drug discovery, these articles will illuminate the impactful role of data science in shaping the future of healthcare.

Submissions for brief reports are not accepted for this Special Issue. Instead, comprehensive studies, methodological analyses, and practical applications at the nexus of data science and biomedical research are encouraged.

Prof. Dr. Jörn Lötsch
Guest Editor

an Open Access Journal by MDPI

la Réunion, 75739 Paris, France

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *BioMedInformatics* (ISSN 2673-7426). *BioMedInformatics* is an international, multidisciplinary, peer-reviewed and scientific open access, open source journal that encourages authors to submit high-quality original research papers and in all areas of biomedical informatics, as well as computational biology and medicine. Systematic Reviews will also be considered for publication. *BioMedInformatics* is published quarterly online by MDPI. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [ESCI \(Web of Science\)](#), [Scopus](#), [EBSCO](#), and [other databases](#).

Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 19.9 days after submission; acceptance to publication is undertaken in 6.6 days (median values for papers published in this journal in the second half of 2025).
