

## Special Issue

# Feature Papers in Clinical Informatics Section

### Message from the Guest Editor

This Special Issue, on featured papers in clinical informatics, focuses on the latest research and advancements in the field of clinical informatics. The selected papers cover a wide range of topics, including electronic health records, health data management, decision support systems, telehealth, and healthcare analytics. These papers provide valuable insights into the integration of technology and healthcare, highlighting the potential for improved patient care, enhanced data analysis, and streamlined clinical workflows. Researchers, practitioners, and policymakers will find these feature papers to be a valuable resource in advancing the field of clinical informatics.

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *BioMedInformatics* (ISSN 2673-7426).

*BioMedInformatics* is an international, multidisciplinary, peer-reviewed and scientific open access, open source journal that encourages authors to submit high-quality original research papers and in all areas of biomedical informatics, as well as computational biology and medicine. Systematic Reviews will also be considered for publication. *BioMedInformatics* is published quarterly online by MDPI. We would be pleased to welcome you as one of our authors.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within ESCI (Web of Science), Scopus, EBSCO, and other databases.

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 19.9 days after submission; acceptance to publication is undertaken in 6.6 days (median values for papers published in this journal in the second half of 2025).
