

Special Issue

Bionic Robotic Fish

Message from the Guest Editors

The Special Issue entitled “Bionic Robotic Fish” will present and share recent progress and technologies in the field of bionic robotic fish. The topics may include, but are not limited to, the following:

- Bionic robotic fish design;
- Materials, structures, and actuators of bionic robotic fish;
- Modeling of bionic robotic fish;
- Advanced control of bionic robotic fish;
- Learning methods for bionic robotic fish;
- Sensing and perception for bionic robotic fish;
- Autonomous navigation of bionic robotic fish;
- Swarm robotic fish and multirobotic fish systems;
- Applications of bionic robotic fish.

Reviews, original research, and communications are welcome.

Guest Editors

Prof. Dr. Zhengxing Wu

Dr. Jincun Liu

Prof. Dr. Chao Zhou

Deadline for manuscript submissions

closed (30 September 2023)

About the Journal

Message from the Editor-in-Chief

Editor-in-Chief

Prof. Dr. Stanislav N. Gorb

Department of Functional Morphology and Biomechanics, Zoological
Institute, Kiel University, 24118 Kiel, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed,
PMC, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Engineering, Multidisciplinary) / CiteScore - Q2
(Biomedical Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 19.5 days after
submission; acceptance to publication is undertaken in 2.8
days (median values for papers published in this journal in
the second half of 2024).
