Bioimaging, CNR, Via
Mezzocannone 16, I-80134
Napoli, Italy

Dr. Alessia Ruggiero

Institute of Biostructures and
Bioimaging, CNR, Via
Mezzocannone 16, I-80134
Napoli, Italy

Deadline for manuscript
submissions:

30 November 2024

Message from the Guest Editors

Pathogen emergence is a complex phenomenon due to multiple factors, like genetic adaptations, selective pressure by the human host, and antibiotic or antiviral pressure. Among re-emerging respiratory pathogens, tuberculosis (TB) is one of the leading causes of death by infection. Rising rates of TB antibiotic resistance have been recorded around the world, making these bacteria immune to anti-TB drugs. TB can persist in many infected individuals in a latent state for many years and can be reactivated to cause disease. This Special Issue offers an open access platform that aims to bring together a collection of research articles, reviews, and perspectives to address various aspects of pathogen emergence and re-emergence and the development of therapeutic tools against difficult pathogens.

Special Issue

an Open Access Journal by MDPI

Editors-in-Chief

Prof. Dr. Peter E. Nielsen

Department of Cellular and
Molecular Medicine, Faculty of
Health and Medical Sciences,
University of Copenhagen,
Blegdamsvej 3C, DK-2200
Copenhagen, Denmark

Prof. Dr. Lukasz Kurgan

Department of Computer
Science, Virginia Commonwealth
University, Richmond, VA 23284,
USA

Message from the Editorial Board

Biomolecules is a multidisciplinary open-access journal that reports on all aspects of research related to biogenic substances, from small molecules to complex polymers. We invite manuscripts of high scientific quality that pertain to the diverse aspects relevant to organic molecules, irrespective of the biological question or methodology. We aim for a competent, fair peer review and rapid publication. Please look at some of the exciting work that has been published in *Biomolecules* so far. We would be delighted to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Biochemistry)
