Bruaene**

Deadline for manuscript
submissions:
closed (31 January 2024)

Message from the Guest Editors

Dear Colleagues,

Given the success of the first edition, we believe it is the time to launch the second edition of this Special Issue. This second edition of the Special Issue aims to focus on recent advances in 3D printing and its value or applications in cardiovascular diseases [...]

This issue will highlight the current advances in 3D printing, with special emphasis given to patient-specific 3D-printed models in the diagnosis and management of congenital heart disease and other cardiovascular diseases. Technological developments, including 3D printing materials and bioprinting or tissue engineering, 3D printing integrated with virtual reality and augmented reality, as well as artificial intelligence, are also included in the potential topics of this Special Issue.

Prof. Dr. Zhonghua Sun

Prof. Dr. Massimo Chessa

Dr. Israel Valverde

Prof. Dr. Alexander Van De Bruaene

USA

Message from the Editorial Board

Biomolecules is a multidisciplinary open-access journal that reports on all aspects of research related to biogenic substances, from small molecules to complex polymers. We invite manuscripts of high scientific quality that pertain to the diverse aspects relevant to organic molecules, irrespective of the biological question or methodology. We aim for a competent, fair peer review and rapid publication. Please look at some of the exciting work that has been published in *Biomolecules* so far. We would be delighted to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Biochemistry)
