Deadline for manuscript
submissions:

closed (30 September 2025)

This Special Issue aims to provide a platform for all biologists, microbiologists, chemists, and biochemists. Join us in shaping the future of microbiota research by submitting your latest findings to our Special Issue on "Prebiotics and Probiotics in Health and Disease: Looking at the Future." Let's build a vibrant interdisciplinary network to unravel the mysteries of microbiota balance and its impact. Together, we can foster innovative collaborations and deepen our understanding of this intricate topic. Your contributions are vital in advancing knowledge and paving the way for transformative breakthroughs. Don't miss this opportunity to be part of a dynamic exploration into the world of microbial interactions.

an Open Access Journal by MDPI

USA

Message from the Editorial Board

Biomolecules is a multidisciplinary open-access journal that reports on all aspects of research related to biogenic substances, from small molecules to complex polymers. We invite manuscripts of high scientific quality that pertain to the diverse aspects relevant to organic molecules, irrespective of the biological question or methodology. We aim for a competent, fair peer review and rapid publication. Please look at some of the exciting work that has been published in *Biomolecules* so far. We would be delighted to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Biochemistry)
