Message from the Guest Editor

Dear Colleagues,

This special issue aims to highlight the pleiotropic mechanism(s) underlying the processes of cancer initiation as well as progression and focus on the antitumor properties of agents derived from Natural sources. Several small molecules isolated from plants, fruits, vegetables, spices etc have demonstrated significant efficacy against various malignancies. These agents can suppress different characteristic hall marks of cancer cell and have been investigated in various preclinical as well a clinical studies. This issue will highlight the potential role of such important natural agents I both cancer prevention and therapy.

I look forward to your contributions,

Prof. Gautam Sethi

Message from the Editorial Board

Biomolecules is a multidisciplinary open-access journal that reports on all aspects of research related to biogenic substances, from small molecules to complex polymers. We invite manuscripts of high scientific quality that pertain to the diverse aspects relevant to organic molecules, irrespective of the biological question or methodology. We aim for a competent, fair peer review and rapid publication. Please look at some of the exciting work that has been published in *Biomolecules* so far. We would be delighted to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Biochemistry)
