### Message from the Guest Editor

Dear Colleagues,

This Special Issue aims to provide a comprehensive overview of the state-of-the-art of the molecular mechanisms of antimicrobial resistance. We invite research papers that consolidate our understanding in this area, and full research articles and systematic reviews will be published. Potential topics include, but are not limited to, the following research areas:

- New technologies for antimicrobial resistance detection;
- Molecular detection of antimicrobial resistance;
- Genetics of antimicrobial resistance;
- Prevention of antimicrobial resistance;
- Mechanisms of resistance of the main classes of antimicrobials.
