### Message from the Guest Editors

Dear Colleagues,

The aim of this Special Issue is to provide a comprehensive view of state-of-the-art biochemistry and molecular biology in Spain. We invite research papers that will consolidate our understanding in this area. Potential topics include but are not limited to the following:

- Biochemical changes through the manufacture of foods;
- Biological activity of food and plant bioactive compounds;
- Formation and biological activity of unhealthy compounds in foods;
- Synthesis and biological activity of new compounds;
- Formation of healthy and unhealthy compounds during food processing;
- Relationship between healthy and unhealthy compounds, and health status.
