

2nd Edition: Biochemistry of Wine and Beer

Guest Editors:

Dr. Encarna Gómez-Plaza

Food Science and Technology
Department, Faculty of Veterinary
Science, University of Murcia,
Campus de Espinardo, 30071,
Murcia, Spain

Dr. Rocío Gil-Muñoz

Murcian Institute of Agricultural
and Environment Research and
Development (IMIDA), Ctra. La
Alberca s/n, 30150 Murcia, Spain

Deadline for manuscript
submissions:

closed (20 February 2024)

Message from the Guest Editors

Dear Colleagues,

Following a very successful first run, we are pleased to announce the launch of a second edition of a Special Issue on the Biochemistry of Wine and Beer.

Today, the production of wine and beer is a worldwide industry worth millions of euros annually, with breweries and wineries throughout the globe. The knowledge of the biochemical processes that occur during beer and wine elaboration is vast, but new technologies and analytical methodologies may allow to acquire completely new information. For this reason, we feel that there is a need for a Special Issue collecting and combining the various and latest findings of this field. This Special Issue will provide readers with an attractive opportunity to easily obtain new information concerning the different facets of wine and beer biochemistry. For the authors, it will be an appropriate occasion to give visibility to their results and analyses. This Special Issue will contain contributions discussing all the aspects broadly indicated by the keywords. Review articles by experts in the field are also welcome.

an Open Access Journal by MDPI

Editors-in-Chief

Prof. Dr. Peter E. Nielsen

Department of Cellular and
Molecular Medicine, Faculty of
Health and Medical Sciences,
University of Copenhagen,

Science, Virginia Commonwealth
University, Richmond, VA 23284,
USA

Message from the Editorial Board

Biomolecules is a multidisciplinary open-access journal that reports on all aspects of research related to biogenic substances, from small molecules to complex polymers. We invite manuscripts of high scientific quality that pertain to the diverse aspects relevant to organic molecules, irrespective of the biological question or methodology. We aim for a competent, fair peer review and rapid publication. Please look at some of the exciting work that has been published in *Biomolecules* so far. We would be delighted to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (*Biochemistry & Molecular Biology*) / CiteScore - Q1 (*Biochemistry*)
