

## Extracellular Matrix-Based Bioinks for 3D Bioprinting Applications

Guest Editor:

**Dr. John T. Connelly**

Blizard Institute—Barts and The  
London, Queen Mary University  
of London, London, UK

Deadline for manuscript  
submissions:

**closed (31 January 2022)**

### Message from the Guest Editor

We are organizing a Special Issue on the topic of “Extracellular Matrix-Based Bioinks for 3D Bioprinting Applications”, and as Guest Editor, I am pleased to invite you to submit research article or review article within this area. The field of 3D bioprinting is rapidly growing, and a major research focus over the past several years has been the development of bioinks with appropriate physical and biological properties. To highlight these technologies, this issue aims to present a collection of articles describing some of the most recent advances in bioink design, synthesis, and application, focusing primarily on materials derived from native ECM or natural biopolymers. The scope includes both fundamental biomaterial science and development, as well as applications of ECM bioinks for tissue modelling and regenerative medicine. We particularly welcome articles on molecular engineering of biomaterials, blended or composite materials, and stimuli-responsive/smart biomaterials. Given your expertise within this field, your contribution would be greatly appreciated and help make this an outstanding and timely Special Issue.

an Open Access Journal by MDPI

## Editors-in-Chief

### Prof. Dr. Peter E. Nielsen

Department of Cellular and  
Molecular Medicine, Faculty of  
Health and Medical Sciences,  
University of Copenhagen,  
Blegdamsvej 3C, DK-2200  
Copenhagen, Denmark

### Prof. Dr. Lukasz Kurgan

Department of Computer  
Science, Virginia Commonwealth  
University, Richmond, VA 23284,  
USA

## Message from the Editorial Board

*Biomolecules* is a multidisciplinary open-access journal that reports on all aspects of research related to biogenic substances, from small molecules to complex polymers. We invite manuscripts of high scientific quality that pertain to the diverse aspects relevant to organic molecules, irrespective of the biological question or methodology. We aim for a competent, fair peer review and rapid publication. Please look at some of the exciting work that has been published in *Biomolecules* so far. We would be delighted to welcome you as one of our authors.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Biochemistry)
