We are pleased to invite you for participation in the special issue “p53 and tumor stroma” which is being prepared for the journal Biomolecules

The aim of this special issue is to elucidate the activities employed by wild-type and mutant p53 in shaping tumor stroma and to highlight the role of these mechanisms for cancer development and therapy response. Original research manuscripts and reviews dealing with these aspects are very welcome.

Keywords:

Tumor microenvironment  
solid tumors  
response to therapy  
p53 secretome
