

## Special Issue

# Innovative Biomolecular Structure Analysis Techniques

### Message from the Guest Editor

We are pleased to invite you to submit your original research articles for a Special Issue of the journal *Biomolecules* on Innovative Biomolecular Structure Analysis Techniques. The field of biomolecular structure analysis is rapidly evolving, with new techniques constantly being developed. This Special Issue will provide a forum for researchers to present their latest work on innovative biomolecular structure analysis techniques. We are particularly interested in articles that report on the use of new techniques to:

- Determine the three-dimensional structure of biomolecules;
- Study the dynamics of biomolecules;
- Investigate the interactions between biomolecules;
- Derive the energy landscapes of enzymes.

All articles will be subject to the journal's standard peer-review process. If you have any questions, please do not hesitate to contact the editor.

## About the Journal

### Message from the Editorial Board

*Biomolecules* is a multidisciplinary open-access journal that reports on all aspects of research related to biogenic substances, from small molecules to complex polymers. We invite manuscripts of high scientific quality that pertain to the diverse aspects relevant to organic molecules, irrespective of the biological question or methodology. We aim for a competent, fair peer review and rapid publication. Please look at some of the exciting work that has been published in *Biomolecules* so far. We would be delighted to welcome you as one of our authors.

### Editors-in-Chief

Prof. Dr. Peter E. Nielsen

Department of Cellular and Molecular Medicine, Faculty of Health and Medical Sciences, University of Copenhagen, Blegdamsvej 3C, DK-2200 Copenhagen, Denmark

Prof. Dr. Lukasz Kurgan

Department of Computer Science, Virginia Commonwealth University, Richmond, VA 23284, USA

---

### Author Benefits

#### Open Access

– free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Biochemistry)
