

## Special Issue

# Antituberculous Drugs: Progress and Challenges

### Message from the Guest Editors

The knowledge of the characteristics and properties of tuberculostatic drugs in solutions is important for fundamental reasons, as well as for practical application in areas such as pharmaceuticals, chemistry, and medicine. However, despite the many factors supporting the importance of these complex systems, our understanding of them is not yet well established. Therefore, in this Special Issue, "Antituberculous Drugs: Progress and Challenges", we encourage researchers to submit their latest developments in the chemical, pharmaceutical, and medicinal fields, with a particular focus on drugs, carriers, bioavailability, and delivery systems for the treatment of tuberculosis. Furthermore, submissions that address the characterization of these drug systems and provide physicochemical property parameters, enabling them to be modeled for future practical applications, are also welcome. To advance chemical and pharmaceutical development, we will welcome manuscripts in the forms of research articles and reviews. You may choose our [Joint Special Issue](#) in *IJMS*.

### Guest Editors

Dr. Ana Cristina Faria Ribeiro

Department of Chemistry, University of Coimbra, 3004-535 Coimbra, Portugal

Dr. Ana Maria Telmo Dias Pereira Vicente Cabral

Faculty of Pharmacy, University of Coimbra, 3000-548 Coimbra, Portugal

### Deadline for manuscript submissions

31 December 2025

## About the Journal

### Message from the Editorial Board

*Biomolecules* is a multidisciplinary open-access journal that reports on all aspects of research related to biogenic substances, from small molecules to complex polymers. We invite manuscripts of high scientific quality that pertain to the diverse aspects relevant to organic molecules, irrespective of the biological question or methodology. We aim for a competent, fair peer review and rapid publication. Please look at some of the exciting work that has been published in *Biomolecules* so far. We would be delighted to welcome you as one of our authors.

---

### Editors-in-Chief

Prof. Dr. Peter E. Nielsen

Department of Cellular and Molecular Medicine, Faculty of Health and Medical Sciences, University of Copenhagen, Blegdamsvej 3C, DK-2200 Copenhagen, Denmark

Prof. Dr. Lukasz Kurgan

Department of Computer Science, Virginia Commonwealth University, Richmond, VA 23284, USA

---

### Author Benefits

#### Open Access

— free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Biochemistry)
