### Message from the Guest Editors

Dear Colleagues,

This Special Issue aims to provide a comprehensive overview of the state of the art of biophysics in Italy. We invite full research articles and comprehensive reviews that showcase current efforts and ongoing projects involving biophysics in Italy. Potential topics include but are not limited to the following research areas: cellular biophysics, biophysics of disease, ion channels, live-cell imaging, mathematical modeling, cellular signaling, medical physics, and application of biophysics in medicine.
