Deadline for manuscript submissions: closed (31 December 2022)

Message from the Guest Editor

Dear Colleagues,

Interest in biosensing for organs-on-a-chip applications has grown tremendously in the last few years. This technology can be applied to areas such as studying organ/tissue physiology, understanding disease etiology, and facilitating drug development. One of the important aspects of organ-on-a-chip is the integration and application of sensing technologies to provide reliable, high-content information on the physiological response of the device. To enable in situ continual monitoring of organ behaviors, a variety of biosensors have been integrated to detect organ-specific reactions and dynamic tissue responses. In this Special Issue, we focus on the integration of biosensors used for conveying and reading the information in organs-on-a-chip models of drug delivery, disease treatment, and personalized medicine.

Editor-in-Chief

Prof. Dr. Giovanna Marrazza

Department of Chemistry "Ugo Schiff", University of Florence, Via della Lastruccia 3, 50019 Sesto Fiorentino, Italy

Message from the Editor-in-Chief

Biosensors is a leading journal, devoted to fast publication of the latest achievements, technological developments and scientific research in the exciting multidisciplinary area of biosensors. Both experimental and theoretical papers are published, including all aspects of biosensor design, technology, proof of concept and application. Special issues are devoted to specific technologies and applications, and a selection of the most outstanding papers each year is recognized. Pushing the boundaries of the discipline, we invite original papers, as well as timely reviews on cutting edge fields within the subject area.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, CAPlus / SciFinder, Inspec, and other databases.

Journal Rank: JCR - Q1 (Chemistry, Analytical) / CiteScore - Q1 (Engineering (miscellaneous))
