Migraine and Cerebrovascular Disease

Guest Editors:

Prof. Dr. Giovanna Viticchi

Neurological Clinic, Department of Experimental and Clinical Medicine, Marche Polytechnic University, Ancona, Italy

Dr. Claudia Altamura

Department of Clinical Neurology, Campus Bio-Medico University, 00128 Rome, Italy

Deadline for manuscript submissions:

closed (31 October 2021)

Message from the Guest Editors

Migraine is the most diffuse form of headache, and increasing evidence indicates that it can be considered a possible risk factor for cerebrovascular disease (e.g., stroke). On the other hand, migraine is one of the common symptoms in genetic cerebrovascular disease, and migraineur subjects often show white matter lesions of undetermined source. All these elements contribute to underline a narrow relationship between these two entities, with possible implications for diagnostic and therapeutic approaches. The aim of this Special Issue of *Brain Sciences* is to explore, with cutting-edge research, the possible pathophysiological aspects, clinical correlations, and future perspectives for these two pathologies. We encourage the submission of original papers or reviews on this topic for this Special Issue of *Brain Sciences*.

Special Issue

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Stephen D. Meriney

Department of Neuroscience,
University of Pittsburgh,
Pittsburgh, PA 15260, USA

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Brain Sciences* (ISSN 2076-3425). *Brain Sciences* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on neuroscience. The scientific community and the general public can access the content free of charge as soon as it is published.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PSYINDEX, CAPlus / SciFinder, and other databases.

Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 12.9 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the first half of 2024).
