Message from the Guest Editors

Dear Colleagues,

Bipolar disorder (BD) ranks among the top five most devastating psychiatric illnesses, and much more research on the contribution of neurobiology as well as psychological and societal factors in BD is needed. Appropriate, personalized treatment pays attention to all these factors, as well as frequent psychiatric and physical comorbidities. This Special Issue aims to supply readers with an up-to-date overview of ongoing research in BD and new, partly experimental treatment approaches. Both original research articles and comprehensive reviews of high educational value covering the different aspects of BD are invited and welcome.

Prof. Dr. Heinz Grunze

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Brain Sciences* (ISSN 2076-3425). *Brain Sciences* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on neuroscience. The scientific community and the general public can access the content free of charge as soon as it is published.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PSYINDEX, CAPlus / SciFinder, and other databases.

Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 12.9 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the first half of 2024).
