of Pisa, Pisa, Italy

Deadline for manuscript
submissions:
closed (24 May 2021)

Message from the Guest Editors

Dear Colleagues,

This Special Issue will focus on neuroimaging studies for visualizing neuronal structure ranging from brain systems to subcellular components in both human and animal models. The emphasis should be on imaging of nervous system interactions with target organs and other tissues or systems.

Topics of interest include but are not limited to the following areas:

Peripheral nervous system;

Neuronal microenvironment(s);

Immunohistochemistry and/or staining tools and their microscopy applications.

Research papers and case reports presenting original studies that fill the above criteria, as well as review articles that relate to the mentioned topics are welcome to this Special Issue.

an Open Access Journal by MDPI

Pittsburgh, PA 15260, USA

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Brain Sciences* (ISSN 2076-3425). *Brain Sciences* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on neuroscience. The scientific community and the general public can access the content free of charge as soon as it is published.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PSYINDEX, PsycInfo, CAPlus / SciFinder, and other databases.

Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.6 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the second half of 2025).
