Message from the Guest Editors

Dear Colleagues,

Chronic pain contributes to the high cost of health care. Acupuncture, meditation, and Qigong are among the mind–body approaches advised for chronic pain management. Furthermore, the use of big data and machine learning is becoming more prevalent in non-pharmacological treatment.

We invite researchers and clinicians to submit original research articles using various methods (e.g., neuroimaging, neurobiology, clinical trials, or machine learning) as well as review articles that will stimulate ongoing efforts to gain new insights into mechanisms of mind–body therapies and the current status of mind–body therapies for an upcoming Special Issue in *Brain Sciences* (PubMed indexed).

Special Issue

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Stephen D. Meriney

Department of Neuroscience,
University of Pittsburgh,
Pittsburgh, PA 15260, USA

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Brain Sciences* (ISSN 2076-3425). *Brain Sciences* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on neuroscience. The scientific community and the general public can access the content free of charge as soon as it is published.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PSYINDEX, CAPlus / SciFinder, and other databases.

Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 12.9 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the first half of 2024).
