Message from the Guest Editor

Dear Colleagues,

Schizophrenia and other psychotic disorders continue to impose a significant burden on global society. These disorders have been, and are still, a challenge to the scientific community.

This Special Issue will focus on latest findings in the field of vulnerability to schizophrenia and other psychotic disorders. A special topic will be brain biomarkers of vulnerability to psychosis. We aim to recruit top scientist in the field to introduce their research, reviews or other relevant original works.

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Brain Sciences* (ISSN 2076-3425). *Brain Sciences* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on neuroscience. The scientific community and the general public can access the content free of charge as soon as it is published.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PSYINDEX, PsycInfo, CAPlus / SciFinder, and other databases.

Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.6 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the second half of 2025).
