

Topical Collection

Collection on Developmental Neuroscience

Message from the Collection Editor

The mission of the Developmental Neuroscience Section is to publish articles that identify the mechanisms of neurodevelopmental processes, both normal and those that cause aberrant development leading to neurological disorders, from gestation through adolescence, which set the foundation of the adult configuration. The scope of this section includes a broad multidisciplinary approach to understanding clinical and basic aspects of neurodevelopment, as such, behavioral, cognitive, molecular, genetic, epigenetic and imaging studies are particularly welcome.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Brain Sciences* (ISSN 2076-3425). *Brain Sciences* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on neuroscience. The scientific community and the general public can access the content free of charge as soon as it is published.

Editor-in-Chief

Prof. Dr. Stephen D. Meriney

Department of Neuroscience, University of Pittsburgh, Pittsburgh, PA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PSYINDEX, PsycInfo, CAPlus / SciFinder, and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 12.9 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the first half of 2024).

Recognition of Reviewers:

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
