Message from the Guest Editor

Dear Colleagues,

The call for scientific papers on "Risk Factor Prediction, Diagnosis and Treatment of Breast Cancer" invites researchers to submit papers that focus on identifying and understanding the risk factors associated with breast cancer, improving methods for breast cancer diagnosis, and developing effective treatment strategies. This call highlights the need for innovative approaches in breast cancer research and emphasizes the importance of collaboration across disciplines to advance our understanding of this disease. Accepted papers will contribute to the growing body of knowledge on breast cancer and inform the development of new prevention and treatment options for patients.

Message from the Editor-in-Chief

Cancers is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Oncology) / CiteScore - Q1 (Oncology)
