### **Message from the Guest Editors**

Potential topics of interest include but are not limited to enhanced recovery protocols, novel techniques concerning the surgical management of gynecologic oncology patients, novel aspects around immunonutrition, as well as predictive factors that may help to predict the course of these women. The issue covers the management of patients with ovarian, endometrial, cervical, vulvar, and breast cancer. We seek contributions in the form of original research articles and reviews, in hopes that leading experts will share their knowledge on the pathophysiology of perioperative recovery and the management of these patients.

Deadline for manuscript submissions:

**20 September 2024**

## Message from the Editor-in-Chief

*Cancers* is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (Oncology) / CiteScore - Q1 (Oncology)
