Advances in Melanoma Treatments: Molecular Targeted Therapies, Immunotherapies and Vaccines

Guest Editors:

Dr. Gagan Chhabra
Department of Dermatology,
University of Wisconsin-Madison,
Madison, WI, USA

Dr. Chandra Singh
Department of Dermatology,
University of Wisconsin-Madison,
Madison, WI, USA

Dr. Ichwaku Rastogi
UW Carbone Cancer Center,
University of Wisconsin-Madison,
Madison, WI, USA

Deadline for manuscript submissions:
20 September 2024

Message from the Guest Editors

This Special Issue will focus on discussing the recent advances in the field as well as commenting on the future implications of these findings. Through this, we plan to emphasize the knowledge gaps that currently exist and address the potential ways that can lead to the improvement of current therapeutic approaches against melanoma.

Department of Gynecologic Oncology and Reproductive Medicine, The University of Texas MD Anderson Cancer Center, Houston, TX 77030, USA

Message from the Editor-in-Chief

Cancers is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.
Journal Rank: JCR - Q1 (Oncology) / CiteScore - Q1 (Oncology)
