### Message from the Guest Editors

This Special Issue of *Cancers* will focus on emerging research on the Hippo-YAP/TAZ-TEAD pathway in cancer. Topics include but are not limited to targeting the function of YAP, TAZ, and TEADs in cancer; identification and/or targeting of novel upstream regulatory pathways and/or downstream target genes of YAP/TAZ-TEAD; identification of biomarkers or other readouts for YAP/TAZ-TEAD-dependent tumors; and studies focused on understanding how dysregulation of the Hippo-YAP/TAZ-TEAD pathway contributes to cancer development or progression. We look forward to receiving your contributions.

Deadline for manuscript submissions:

**closed (31 December 2023)**

an Open Access Journal by MDPI

## Editor-in-Chief

Houston, TX 77030, USA

## Message from the Editor-in-Chief

*Cancers* (ISSN 2072-6694) is an international, online journal addressing both clinical and basic science issues related to cancer research. The journal will continue its open access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (Oncology) / CiteScore - Q1 (Oncology)
